

## WARRNAMBOOL ART GALLERIES & ARTISTS STUDIO

### **Lobly Arts Studio**      220 Hopkins Point Rd, Warrnambool

I paint, draw, make prints and take photos, but my primary love is textile art. I love creating with natural yarns, fibres and fabrics. I create textile arts using silk, wool, cotton. I love to begin with pure natural undyed fibres, yarns or fabrics and creating something from the very beginning. In fact the coloured wools I use for felting and spinning are 'home grown' from our flock of sheep and alpacas. My textile arts include spinning, weaving, knitting, felting, sewing, silk painting. I love to make my own colours for these creations using various dyes – rediscovering the joys of natural eco-dyeing and printing using dyes sourced from nature, including leaves and plants collected locally – many grown in my own garden. I also use some commercial dyes for added bright colours.
